

Schnaithmann

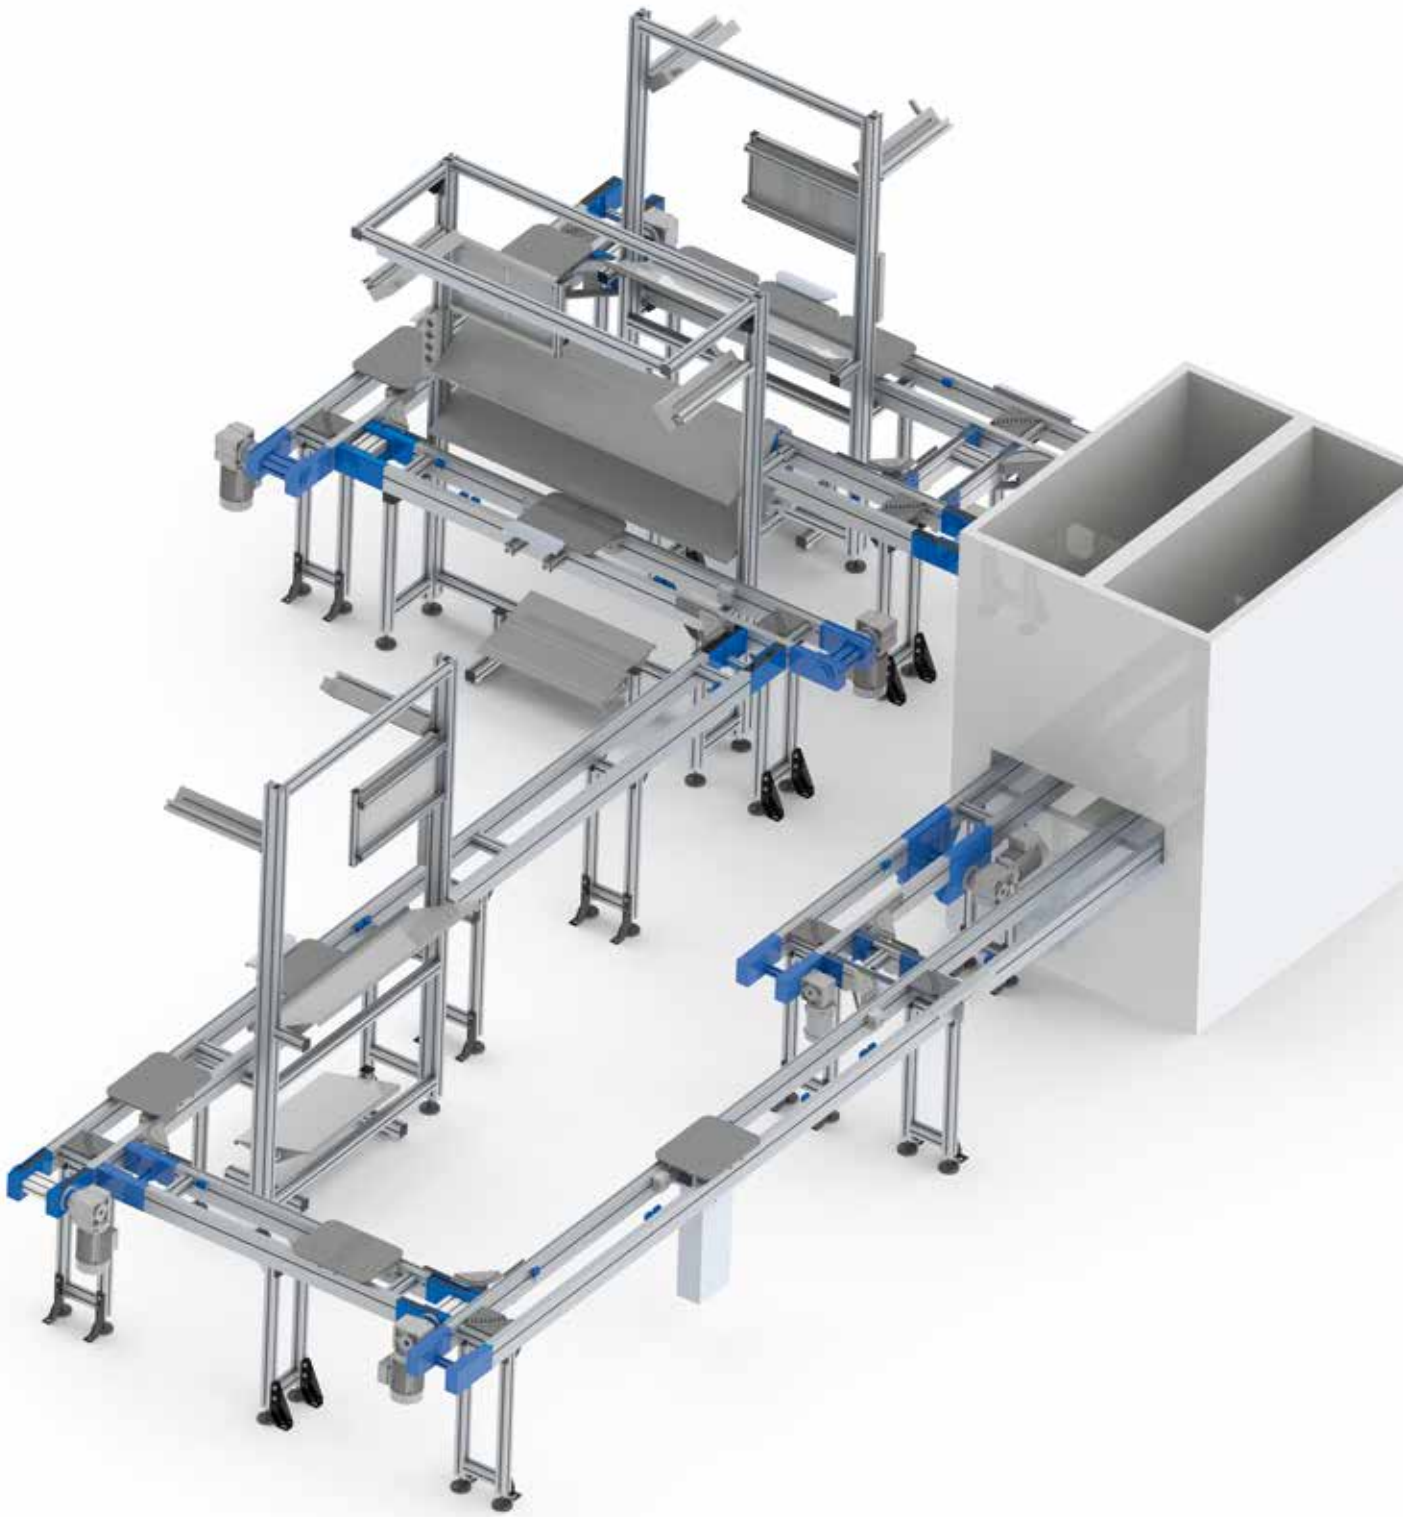

E

Partner of the best 

# System Solutions for Material Flow and Handling

Simply clever and cleverly simple.

# Your solution

**We show you the way to the goal.** Our team of experienced specialists transforms your requirements into tailor-made, efficient and workable solutions. We offer you our dedicated support from the planning stage to the first day of operation and beyond. **We would be delighted to join you for nonbinding talks with your experts and ours.**

We believe that partnership  
begins with reliable services.  
Schnaithmann – partner of the best.

## Our know-how

It is essentially our many years of experience that enables us to turn your projects into excellent product solutions. Optimal planning for process integration, workpiece loading and unloading, assembly, material-flow, robotic and handling systems is ultimately revealed in smooth, stable and lasting operations. **May we offer you a demonstration of how this works?**

## Custom solutions for material flow and handling are our standard solutions

**The aim of our efforts is to meet your desire for perfect solutions.** As a manufacturer of machines and systems, you make an essential contribution to securing the economic success of your customers and that of your own enterprise. You also face increasing demands relating to the production of machines and systems that offer greater advantages. New ideas and innovative solutions are necessary to reach the most ambitious goals quickly and cost-effectively.

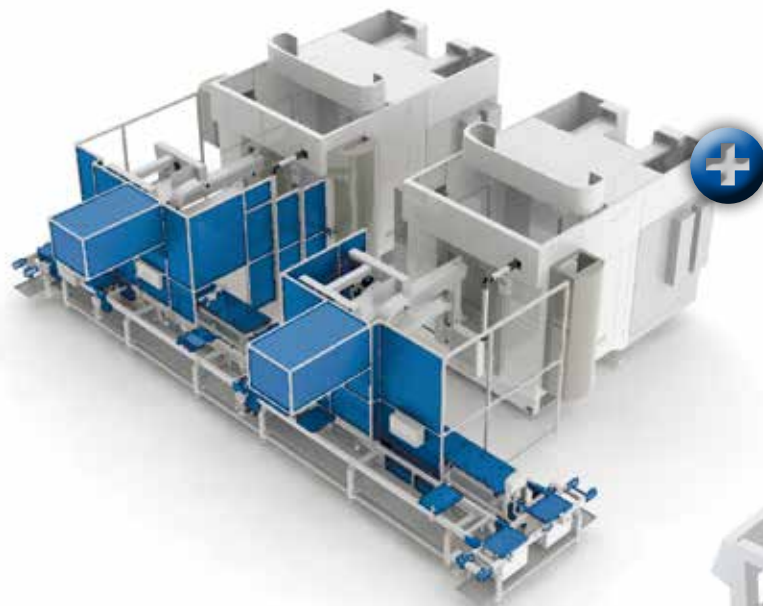

We can support you when it comes to the realization of those ideas because we know the practical challenges: conveying workpieces, optimizing cycle times, loading and unloading machines and stations, buffering of parts, linking linear and parallel production systems, decoupling work sequences, assembling components and much more. **Talk to us. As a responsible and reliable partner, we would be happy to support you.**

### **YOUR ADVANTAGES:**

- ▶ **CUSTOM SOLUTIONS**
- ▶ **HIGH QUALITY COMPONENTS**
- ▶ **MANY YEARS OF EXPERIENCE AND EXTENSIVE EXPERTISE**
- ▶ **NUMEROUS PROJECTS REALIZED THROUGHOUT THE WORLD**

There are many reasons  
that speak for our solutions.  
Here are nine of them:

Efficiency Plus:

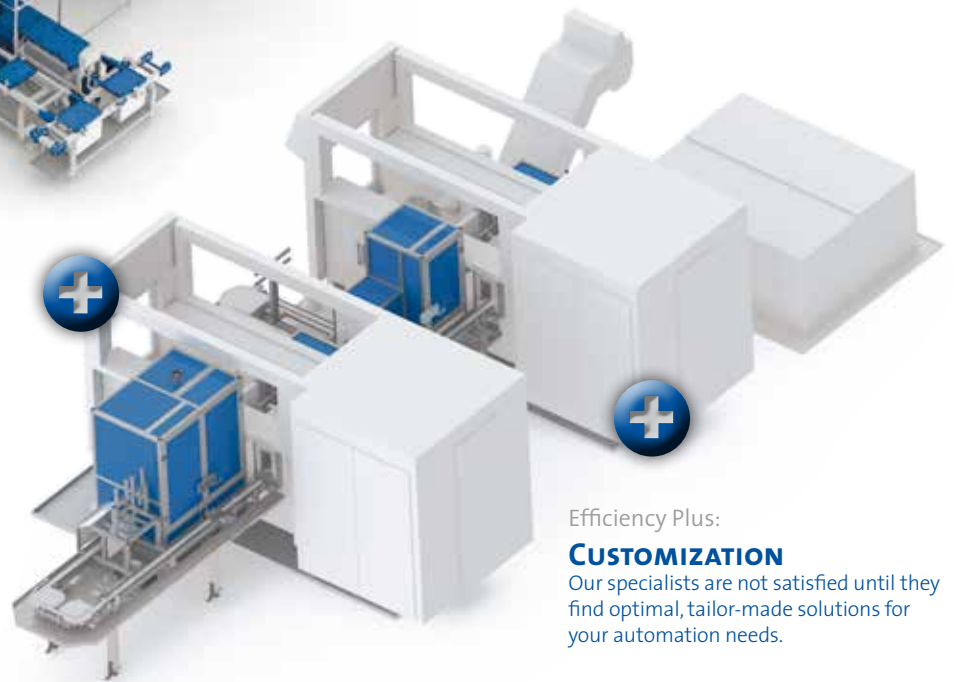

**YOUR MARKET SUCCESS**

Our dedication to driving progress in the area of material-flow and handling systems allows us to ensure the continued market success of your machines and systems. This dedication includes maintaining close relationships with universities and other research institutions.

Efficiency Plus:

**TRUST AND PARTNERSHIP**

Our customers and partners have held our services in high regard for many years. Basic values such as honesty, trust and a commitment maintaining a high level of expertise form the basis of a solid and lasting partnership.

Efficiency Plus:

**CUSTOMIZATION**

Our specialists are not satisfied until they find optimal, tailor-made solutions for your automation needs.

# Material flow technology

MATERIAL FLOW  
SOLUTIONS FOR  
MACHINING  
TASKS

# Schnaithmann

Partner of the best ↗

Efficiency Plus:

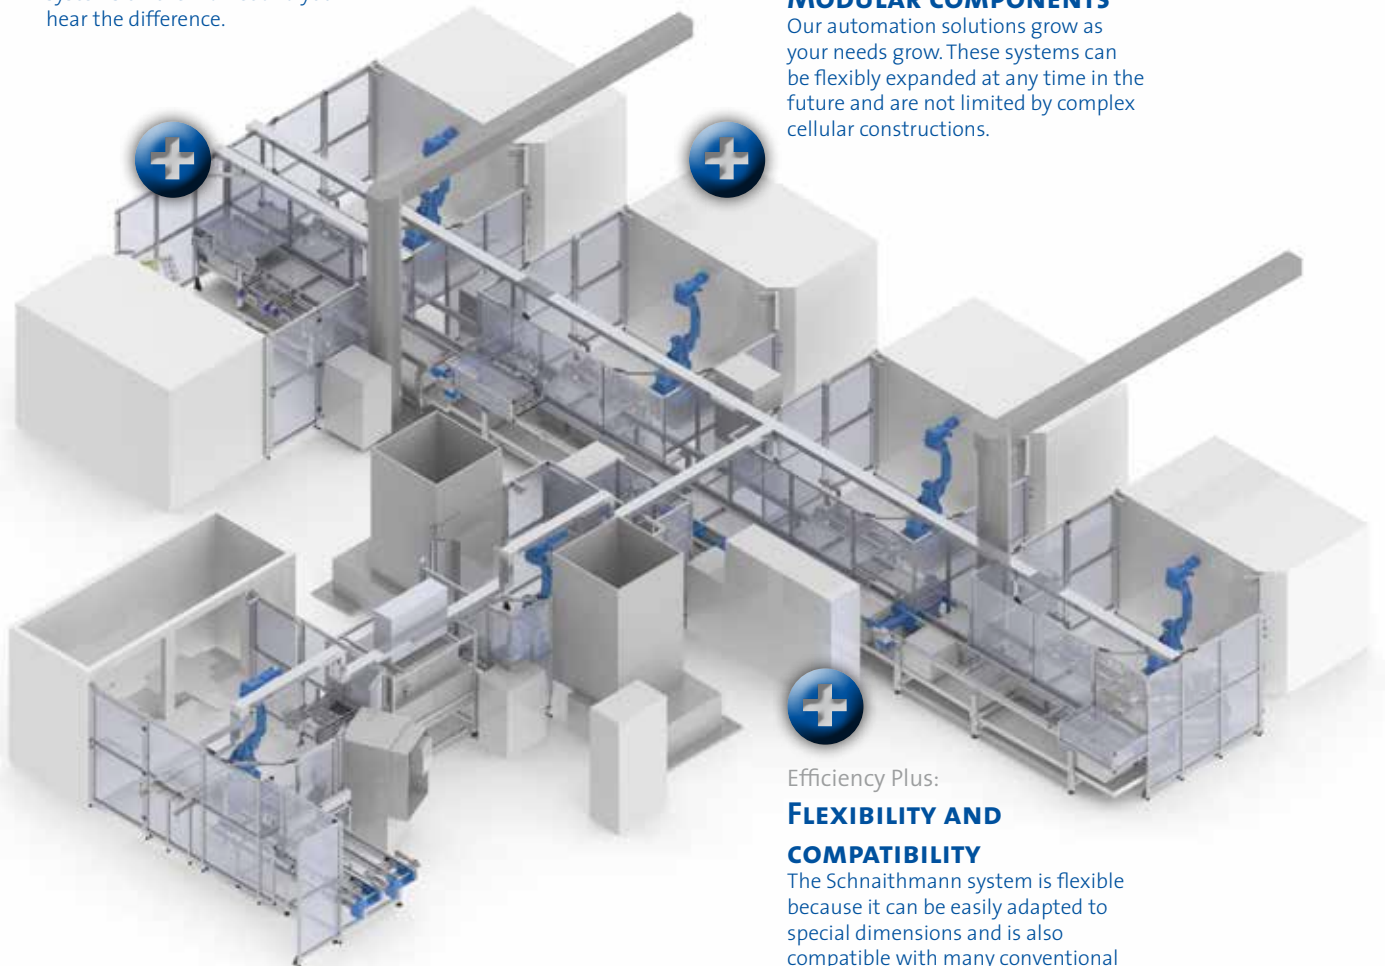

## HIGH QUALITY AND SMOOTH OPERATION

Although you may scarcely be able to hear our transfer systems, you will hear about how good they are. Compare our transfer technology to that of other systems on the market and you will hear the difference.

Efficiency Plus:

## MODULAR COMPONENTS

Our automation solutions grow as your needs grow. These systems can be flexibly expanded at any time in the future and are not limited by complex cellular constructions.

Efficiency Plus:

## FLEXIBILITY AND COMPATIBILITY

The Schnaithmann system is flexible because it can be easily adapted to special dimensions and is also compatible with many conventional systems on the market.

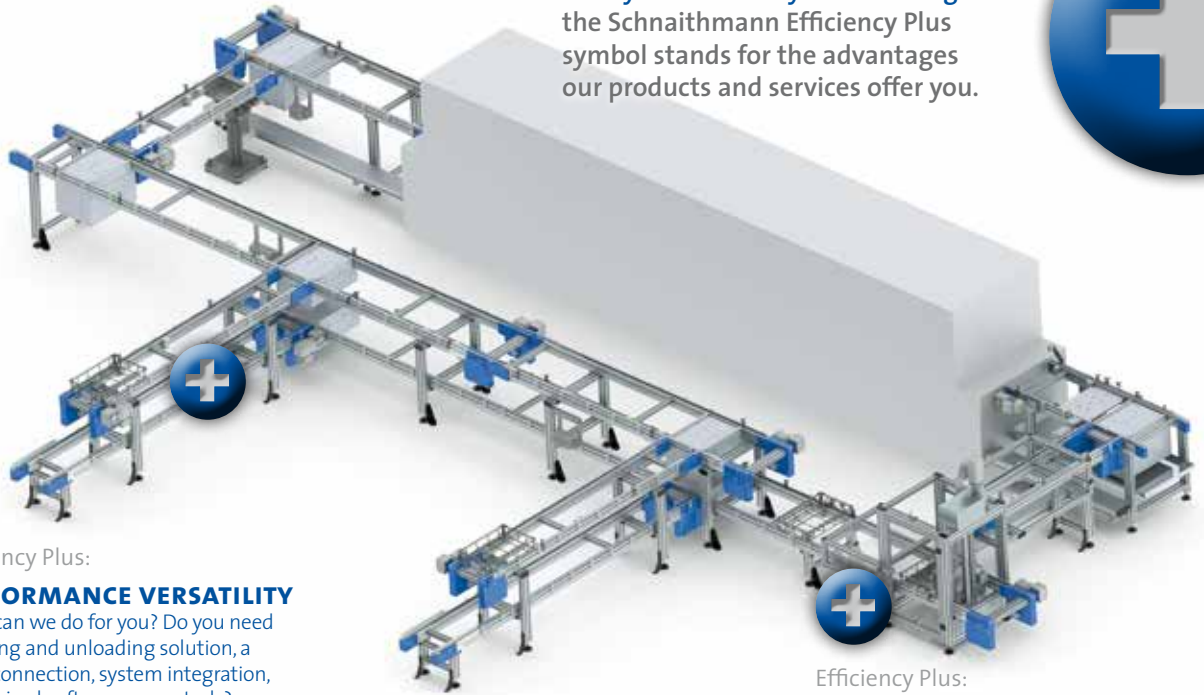

# Handling systems

MATERIAL FLOW  
SOLUTIONS FOR  
ASSEMBLY  
TASKS

Our symbol means your advantage: the Schnaithmann Efficiency Plus symbol stands for the advantages our products and services offer you.

Efficiency Plus:

### PERFORMANCE VERSATILITY

What can we do for you? Do you need a loading and unloading solution, a robot connection, system integration, customized software or controls? We would be happy to help you select the perfect solution.

Efficiency Plus:

### GLOBAL SERVICE

As a globally active partner, we are ready and willing to support you at any location throughout the world.

Efficiency Plus:

### THE COMPETITIVE EDGE

The experience we have gained from many thousands of successfully realized projects flows into every new Schnaithmann development. This engineering expertise gives you a competitive edge.
